Orange, CA 92867

Subject: Rodrigo Rodriguez

Mr. Hoover,

I am a project manager for Credit Suisse First Boston on the buildout that TICON General Contractors are doing for us on the eighth floor in the Atrium building in Irvine. In the course of the project, I have worked with Rodrigo Rodriguez of your firm and wanted to share with you my opinion that he did an excellent job for us.

Rodrigo seemed to be on top of all the technical aspects of the work and was most helpful in dealing with unforeseen developments on the job and taking a positive approach to solving them. Rodrigo attended the regular project meetings that we had and provided helpful coordination during them.

Though small, our job had some complexities, especially in the electrical scope, and Rodrigo understood them and the way they fit into the project as a whole—a job well done.

Sincerely,

Barry Reid
Vice President
